Dance with a Theatre : Traces Description

Traces is the result of a collaboration between Dance Theatre CcadoO, South Korea and Attakkalari Centre for Movement Arts, India. Attakkalari and CcadoO have tremendous synergy in their aesthetic application of interactive digital design with contemporary movement. The multimedia dance theatre group CcadoO aims at exploring the core of humanity and objectivity through interdisciplinary performances and collaborations. The works of CcadoO have a psychological dimension and are transfused with unexpected and enjoyable elements. Although, artists from both the companies have visited and performed in each other's countries – this is the first instance of a creative alliance. Taking its cues from festivals, celebrations, and fair grounds in India and South Korea, the collaborative work Traces will attempt to create suspended spaces oscillating between reality and imagination. The idea and treatment of time as continuous and "ever present" borrowed from Buddhist and Hindu philosophy forms one of the anchoring points for this synergistic piece. Seemingly discordant images, metaphors, characters will coexist in the suspended spaces – defying conventional notions of time and place. This particular vantage point will afford the artists to delve into their memories and visions while freely moving between the past, present and future. Directed & Choreographed by Hobin Park/ Jayachandran Palazhy. Duration: 50 mins.
