

# The Announcement for the Open-call Result : KAMS Project 2012

Korea Arts Management Service (KAMS) is delighted to announce the projects supported through KAMS Project 2012.

The Ministry of Culture, Sports and Tourism and Korean Arts Management Service (KAMS) have implemented KAMS Connection, the program aiming to encourage long term international creative exchanges and collaborations, and to build expertise and networks for arts professionals, since its initiation in 2010.

As part of KAMS Connection, a call for proposals for KAMS Project 2012 that supports projects developed through KAMS Research in 2010 and 2011 was open from March 16 to April 6, 2012. Seven successful applicants were chosen by an assessment panel, consisting of three performing arts professionals with a profound experience and expertise in the performing arts sector, out of fourteen applications received. One of the successful applicants was selected as part of Korea-Finland Connection 2012, matching support in partnership between Korea Arts Management (KAMS) and Dance Info Finland (DIF). The list of the successful applicants is below.

※News related to ongoing development of the chosen projects will be updated through newsletter.
